

HARMONY III™

Customized comfort
for every corner of
your home

HOME COMFORT SYSTEMS
Innovation never felt so good.™

Harmony III™ Zoning System

Innovation never felt so good.™

Allows you to customize your comfort according to household needs with up to four zones

Provides optimal comfort when combined with Lennox' variable speed furnaces, two-stage air conditioners, and heat pumps

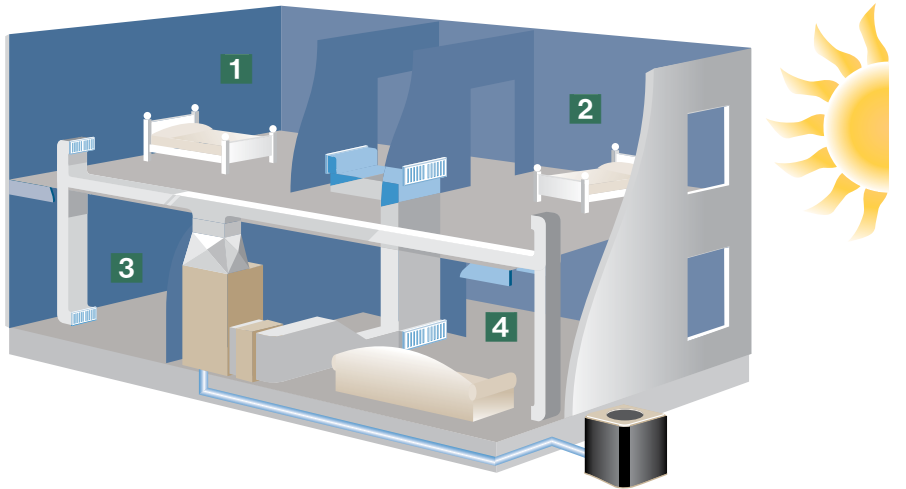

Balances airflow throughout your home, providing even temperatures

Automatic changeover between heating and cooling enhances comfort

The Harmony III™ Zoning System is designed for the many ways you use your home. Maybe you're caught up in family "thermostat wars"? Or perhaps there are parts of your home you rarely use? The Harmony III Zoning System allows you to divide your home into up to four separate areas, giving you the comfort and control you've always wanted.

THE PERFECT BALANCE OF COMFORT

Working with your heating and cooling system, the Harmony III Zoning System brings balance to your home environment. By directing airflow only to desired areas, Harmony III keeps your desired temperatures throughout your home.

- Zone 1** – Seldom-used upstairs bedroom (needs little heat or cooling)
- Zone 2** – Children's upstairs bedroom (high heat in the summer requires additional air conditioning)
- Zone 3** – Home office or exercise room
- Zone 4** – Family room (high-activity area needs extra air conditioning)

WARRANTY

2-year limited warranty on covered components.

The Harmony III Zoning System increases your comfort. As illustrated by the example above, this innovative system gives you total control over your home heating and cooling.

Comfortable Provides consistent air temperatures for exceptional home comfort

The Harmony III Zoning System meets the airflow requirements of one area, without affecting other areas. And it works with advanced heating and cooling systems, so it can regulate temperature to as little as one degree* of the thermostat setting.

Flexible Divides your home into up to four different zones

The Harmony III system lets you increase, reduce or shut off heating or cooling in each zone to match the needs of your household.

Quiet Increases your comfort, without increasing sound levels

The Harmony III system allows your Lennox® HVAC equipment to deliver peak performance without continually operating at peak capacity. Lower speeds mean lower sound levels.

Harmony III™ Zoning System Features

The Harmony III™ Zoning System delivers the ultimate in temperature control for the ultimate in home comfort.

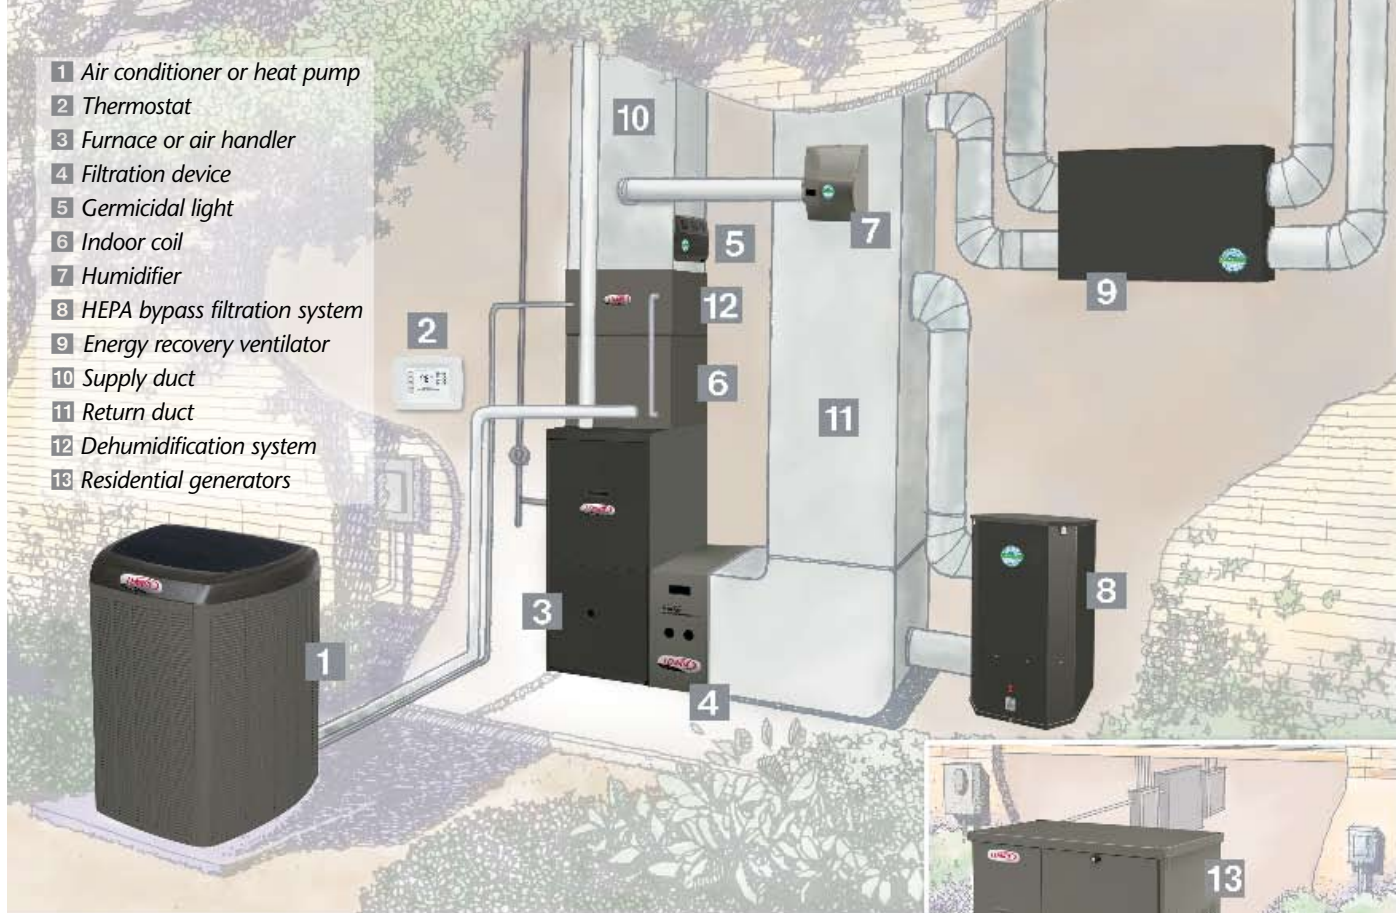

Designed for use with Lennox' variable speed furnaces, air

handlers, air conditioners, or heat pumps** and digital thermostat, the Harmony III Zoning System provides the desired temperature in each zone. The system includes an easy-to-use control panel, comfort-enhancing dampers and a duct-mounted sensor that relays data to the control panel.

Feature	How It Works	How It Helps
Solid-State Control Panel	Controls up to four zones in your home	Provides desired temperatures and consistent airflow
Discharge Air-Sensor Probe	Continually monitors the temperature in the supply airstream	Helps prolong the life of the equipment
Digital Thermostats (one for each zone)	Control temperatures in each zone	Precisely regulate heating and cooling temperatures
Vacation Mode	Defaults to Zone 1 thermostat settings, which controls the temperature for your entire home while you're away	Maximizes efficiency
Auto Changeover	Automatically alternates between heating and cooling during transitional weather	Delivers enhanced comfort and peace of mind
Continuous Fan	Allows continuous fan operation by zone	Creates better indoor air quality

*Depending on the brand of digital thermostat.

**System provides stand-alone dual-fuel capability.

CUSTOMIZE YOUR COMFORT

Lennox® heating, cooling and indoor air quality products are designed to provide efficient, economical comfort—not only as individual units, but also together as an integrated system. This combined network of products delivers on every comfort count, from consistent temperatures and balanced humidity to improved indoor air quality. Lennox also offers a line of residential generators, which provide safe, reliable standby power in the event of outages.

DEALERS YOU CAN COUNT ON

Choosing the right dealer for your home's heating, cooling and air quality needs is every bit as important as choosing the right brand. We think you'll agree our independent dealers are a big reason you can count on quality customer service whenever you call. Your Lennox dealer's dedication to quality shows in his knowledge, training and expertise in designing the right system for your home, installing it properly and keeping it running perfectly for many years to come.
